#### **Dimensions**

1 - JACKET

PVC, Ø5,3mm

(imprinting: Gotham GAC-1 / unbalanced)

2 - VISCOSE SEPARATION

3 - SHIELD NO. 1

4 - SHIELD NO. 2

5 - CONDUCTIVE PVC LAYER

6 - INSULATION (COND.)

7 - CONDUCTOR

PE insulation, Ø1,25mm

Bare copper wire (0,10mm)

Bare copper wire (0,10mm)

Bare copper wires  $48 \times 0.07$ mm (0.19mm<sup>2</sup>)

#### Description

Professional very low noise audio cable. Specially designed for instruments and other unbalanced lines where high RF protection and very low noise are desired. Double reussen shielding and very high flexible PVC material in combination with unique construction are the topics of this product. The conductive PVC layer will save from motion generated (static) noise.

#### **Features**

## TECHNICAL SPECIFICATION

Conductor

<= 110 Ohm/km

resistance

<= 28 Ohm/km

Shielding resistance

~= 20 OHII/KII

Capacitance

<= 160 nF/km

Test Voltage

1000 Veff (2 mins)

### ORDERING DATA

Colours

black, blue, red,

and yellow

Reels at

100m EW250

Weight/reel

4,150 kg

Weight/metre

0,038 kg
